

PROPANE SOLUTIONS

PROPANE TANK DELIVERY TRUCKS

BRINGING INNOVATION, EXPERIENCE AND ONE-STOP SOLUTIONS TO THE PROPANE INDUSTRY

06

HIGHLIGHTS

TANK CRADLE INSERTS | FLOORING
PROVIDES SAFETY IN ANY WEATHER

Integrated tank cradle inserts with aluminum tank cradles allow cradle storage when not in use, and quickly moved into place for two 500 gallon tanks or one 1000 gallon tank. Rubber composite flooring made from 100% recycled goods provide excellent traction and ensure longevity.

STORAGE BOXES
STORE TOOLS AND FITTINGS SECURELY

Drivers side storage boxes with adjustable shelving and LED interior lighting provide secure storage out of the elements. Steel block storage box with openings for mud and rocks to fall through allow block storage crucial for tank setting.

FLIP SAFETY PLACARDS
MEET DOT REGULATIONS

Flip safety placards are located on all sides of the vehicle in addition to a 20lb fire extinguisher ensure proper DOT compliance.

CLASS V RECEIVER | COLOR BACKUP CAMERA
INCREASED VISIBILITY AND SAFETY

Class V receiver hitch with plug standard to allow for towing when needed. Color back-up camera allows for safe and easy backing even while carrying propane tanks on the bed.

LED LIGHTING
LESS MAINTENANCE AND MORE VISIBILITY

LED lights standard for all recessed stop, turn, and back-up lights ensure other drivers will see you. Three LED flood lights in the bulkhead, and two LED adjustable flood lights allow safe working conditions even when visibility is low.

MULTIPLE TIE-DOWN OPTIONS
MOVE ALL TANK SIZES WITH ONE TRUCK

E-Track along each side of the bed allows for storage of multiple tank sizes. Recessed "D" rings in the floor allow for safe and secure tank containment.

ARTICULATING SERIES

PKTS-S

PALFINGER TANK SET - STEEL

A complete work-ready solution! Paired with the PALFINGER PK 6501 knuckle boom crane, the PALFINGER Tank Set - Steel offers extraordinarily high efficiency due to its optimal ratio of dead weight to lifting moment. The sensitive control system and large hydraulic outreach of the PK6501 allow propane tanks of all sizes to be deposited with precision.

STANDARD FEATURES

- » **Outriggers:** Manual Out/Hydraulic Down outriggers standard on PK 6501 to ensure crane stability and ease of setup.
- » **Paltronic 50:** The latest in crane control electronics from PALFINGER to provide overload protection and feedback, and quick and easy crane diagnostics.

CRANE SPECIFICATIONS

Model	Maximum Lifting Capacity	Maximum Outreach	Capacity at 17'9"	Capacity at Maximum
PK 6501 A	7270 lbs	24'3"	2300 lbs	1700 lbs
PK 6501 B	6940 lbs	30'6"	2100 lbs	1220 lbs

TELESCOPIC SERIES

PSCT-S

PALFINGER SERVICE CRANE TANK SET - STEEL

The PALFINGER Service Crane Tank Set - Steel is paired with the PSC to offer you superior lift-to-weight ratios along with full utilization of the cranes hydraulic reach. North American manufacturing and standardized components, in conjunction with an industry leading 24 month warranty on major components, guarantees years of worry free usage.

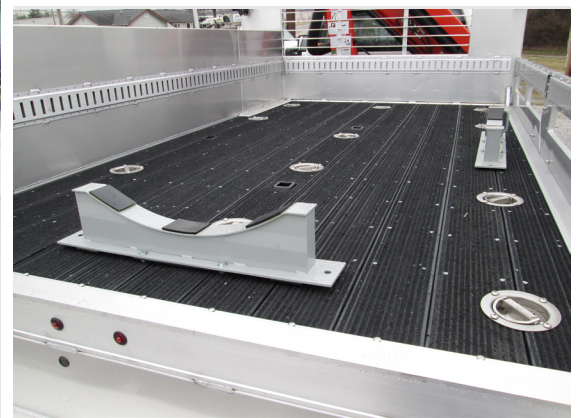

CRANE SPECIFICATIONS

Model	Maximum Lifting Capacity	Maximum Outreach	Capacity at 17'9"	Capacity at Maximum
PSC 6025	6000 lbs	25'	2100 lbs	1420 lbs
PSC 4329	8000 lbs	29'	2400 lbs	1220 lbs

STANDARD FEATURES

- » **Radio Remote Control:** Run all crane functions proportionally from a wireless remote
- » **Hydraulic Extending Outriggers:** Hydraulic Out/Hydraulic Down outriggers are standard

ALUMINUM BODIES

Aluminum bodies are available for both the Articulating and Telescopic Series. The articulating version includes an all aluminum body structure with Rumber floor, while the telescopic version includes a steel crane pedestal. Aluminum bodies include the same innovative features as the steel models, but provide added weight savings and durability.

THE RIGHT DESIGN FOR YOUR UNIQUE PROPANE NEEDS

06 OPTIONS

DRAWER SETS

TO KEEP FITTINGS AND TOOLS ORGANIZED

Aluminum drawer sets with 250lb capacity drawer slides available in all sizes and configurations for the storage boxes. Each drawer has optional dividers and are perfect for tank fittings. Drawer sizes from 2-7”.

RADIO REMOTE CONTROL

EFFICIENCY AND SAFETY TO EVERY DELIVERY

Optional radio remote control on PK cranes allow for one driver to move a tank without multiple trips to the truck increasing driver efficiency and safety. Radio remote is standard with PSC cranes.

LIFTGATE | WINCH

CUSTOMIZABLE SOLUTIONS FOR EVERY NEED

PALFINGER liftgates designed specifically for bottled gas applications as well as standard direct and cable lift options available from 1000 to 4500lb capacities. Front and rear mount winch options also available for vehicles in severe off-road conditions.

TALL SIDE CONFIGURATIONS

ADDED STORAGE AND SECURITY

Tall side options available on all models to increase storage capacity and ensure tools and fittings are kept secure and out of the elements. Customizable to meet your specific application needs.

CRANES

CRANE OPTIONS TO MEET EVERY NEED

As the world leader in truck mounted lifting equipment, PALFINGER offers a crane to fit every need. Telescopic cranes with capacities up to 14,000 lbs, and articulating cranes up to 88,000 lbs max capacity mean you can count on PALFINGER for all your lifting requirements.

CUSTOM BEDS

FLEXIBILITY FOR ENDLESS SOLUTIONS

Custom bed options to fit every need; including custom bed lengths, floor types, and storage configurations. We can design and build a package to fit every application and built to increase productivity and efficiency.
