## SCALE CALIBRATION EQUIPMENT

## SCALE EQUIPMENT

### HIGH STANDARDS

PalFleet Tiffin (formally known as Tiffin Loader Crane) has been the source for quality scale calibration equipment for over 20 years. We manufacture scale test equipment to the highest standards.

Our calibration equipment is utilized by many state and local government Consumer Protection Agencies.

Our knowledgeable service technicians are ready to meet your preventative maintenance or repair needs to ensure minimal downtime.

### EQUIPMENT

- 23.5 Kohler gasoline engines are standard on all C-series models
- All componentry is compliant with the National Institute of Standards and Technology's regulations
- Designed for use with Rice Lake test weights but can be designed for other makes
- New design for inner trolley lift system reduces maintenance needs and fewer repairs
- Wireless remote controls standard on all trolley systems, manual backup controls
- Radio remote controls are optional on test carts.

### CRANE PACKAGES

Flatbed packages come equipped with Palfinger cranes, the world's leading manufacturer of knuckle-boom cranes. Available options include radio remote control and hydraulic rotator at the boom tip.

### C-SERIES TEST CARTS

Available in 3 K- 6K lb along with 8 K models. Are able to perform calibrations on both railroad and heavy capacity truck scales. C-series test carts also available in custom sizes to accommodate different test weight sizes and shapes. Turn-key packages and multiple unit orders for fleet customers are available.
